exhibition that pairs original paintings with award-winning floral designers who will create living botanical interpretations of the artists' work. Ticket sales from the event will benefit Nauset Garden Club's scholarship philanthropies. The exhibition schedule will

Of the current market, Julia E. Bangert, gallery director at Tree's Place, says, “Collectors are branching out. In addition

to our established market for coastal landscapes, we are seeing forays into less conventional subject matter. Industrial still life arrangements and nearly abstract studies of sea and sky are gaining momentum.”

Tree's Place has been a destination for fine art on Cape Cod for more than 45 years. Open year-round, the gallery features museum-quality works by

some of the most sought-after artists in the country and abroad. Visitors can expect to experience an ever-changing assortment of subject matter, from large-scale marine scenes, and smaller landscapes completed in the plein air tradition, to traditional still life arrangements and contemporary genre scenes.
